The listed measures represent extrapolated average values that may be slightly different on the product (± 2 % ± 5 cm). The height dimensions are based on the ground socket M4. With the base M4, 120 kg these vary by plus 11.5 cm and with the base M4, 180 kg by plus 15.5 cm. Height dimensions are based on ground socket BT. These vary slightly depending on the type of base. Except for steel base minus 5 cm. The max. wind speed limits as per our separate list apply only in the presence of a fix ground anchorage.

In the presence of several sunshades, the minimum distance between one sunshade and another and between sunshades and walls shall be 20 cm.
